ABOUT NEW LIFE RECOVERY

We believe everyone can benefit from a New Life Recovery experience. We all have struggles in life; struggles with addictions, food, depression, anxiety, and relationships to name a few. But we approach recovery from different angles. Some want a formal recovery meeting with a traditional recovery experience. Others want a recovery experience in a small informal group, or in an existing group they are already comfortable with at their church. And some may prefer learning about recovery at their own pace before jumping into a group or meeting experience. This is the beauty of New Life Recovery. Unlike other Christian recovery approaches that mandate how and where their recovery ministry can be employed, New Life Recovery brings Christian recovery to you—right where you're at.
